

# SHUBHAM KAMBOJ

SENIOR SOFTWARE  
ENGINEER

PHONE | (+91) 8923598798  
EMAIL | shubham.s.kamboj@gmail.com  
LOCATION | Noida, INDIA  
EXPERIENCE | 8 Years 4 Months

## Key Skills

- Java
- Spring Boot
- Microservices
- Aws
- Mysql
- Gitlab
- Jpa
- Swagger
- Firebase
- Jwt
- Jmeter
- Redis
- Docker
- Grafana
- JIRA Tool
- Sonarqube
- Postman Tool
- Kubernetes
- Ci/Cd
- Kafka
- MongoDB

## Languages

- English

## Profile Summary

Senior Software Engineer having 8+ Year Experince with excellence problem solving skills and ability to perform well in a team.

## Work Experience

**Senior Software Engineer**  
UST GLOBAL TECHNOLOGY SERVICES  
01/2025 - Present

Design and develop scalable, high-performance Java applications using Spring Boot and Microservices architecture.  
Create and maintain RESTful APIs, ensuring secure, efficient, and reliable communication between services.  
Integrate services with databases (MySQL, SQL Server) and cloud platforms (AWS - S3, SES, EC2).  
Implement authentication and authorization mechanisms using JWT .  
Monitor and debug services using Grafana dashboards.  
Collaborate with cross-functional teams in Agile environments, participating in PI planning and Scrum ceremonies.  
Contribute to system design, architecture discussions, and code reviews.

**Senior Consultant**  
Capgemini  
06/2024 - 01/2025

Design and develop scalable, high-performance Java

- Hindi

applications using Spring Boot and Microservices architecture.

Create and maintain RESTful APIs, ensuring secure, efficient, and reliable communication between services.

Integrate services with databases (MySQL, SQL Server) and cloud platforms (AWS - S3, SES, EC2).

Implement authentication and authorization mechanisms using JWT .

Monitor and debug services using Grafana dashboards.

Collaborate with cross-functional teams in Agile environments, participating in PI planning and Scrum ceremonies.

Contribute to system design, architecture discussions, and code reviews.

### **Senior Software Developer**

Ginger Webs pvt ltd

10/2021 - 06/2024

I contributed to the development of microservices-based solutions

for India's leading coaching institute, ALLEN Career Institute,

supporting NEET-UG, IIT-JEE, and Board exam preparations.

I worked in an Agile environment, actively participating in sprint

planning, backlog grooming, and retrospectives.

Additionally, I

collaborated with program analysts, testers, and clients to define

functional requirements and write user stories.

Key responsibilities also included peer code reviews, ensuring

high-quality standards, and handling code merging & deployment

through CI/CD pipelines .

### **Software Developer**

SGT UNIVERSITY GURUGRAM

09/2020 - 09/2021

Deliver code for UI and Backend Web-Services on a daily and weekly basis that is robust, functional, and scalable • Work closely with program analysts, testers and clients to identify features the software needs to contain to write stories of functional to complete. • Use scrum for agile development and participate in team led solutions, reviewing peer's code for quality

and completeness.

### **Software Developer**

Techtree It Systems

04/2019 - 09/2020

Development of packages module Mastering part, Testing , Bug-Fixing , Module-Enhancement , Performance-Enhancement of Project Development , Server side validation.

### **Software Developer**

Nucleus Computers

04/2017 - 03/2019

Development , Testing , Bug-Fixing , Module-Enhancement , Performance-Enhancement of Project Development , Server side validation, Development of UI for content rendering, Designing and deploying the database for the portal, Deploying and managing WAP Application on production server.

## **Projects**

### **Nucleus Computers:- Funstore**

24 Months

Funstore portal is a mobile web application where customer can download games, videos, wallpaper and songs. This application is based on VAS (Value Added Services) based on operator. The application develops using Java Spring, and Hibernate Framework at front end we using Angular JS, HTML and CSS.

Technical Overview:

- \* Funstore portal is a mobile web application where customer can download

- games, videos, wallpaper and songs.

- \* This application is based on VAS (Value Added Services) based on operator.

- \* The application develops using Java Spring, and Hibernate Framework at front end we using Angular JS, HTML and CSS.

Role & Responsibilities:

- \* Development

- \* Testing

- \* Bug-Fixing

- \* Module-Enhancement

- \* Performance-Enhancement of Project Development

- \* Server side validation
- \* Development of UI for content rendering
- \* Designing and deploying the database for the portal
- \* Deploying and managing WAP Application on production server

## **Techtree It Systems Pvt. Ltd. :- Satguru Travels — Holiday Packages Module(B2B)**

16 Months

Holiday Package is defined by the satguru travel, Here customer can book Holiday package, Satguru travel provide max 14 days holiday package and in these days satguru travel provide Flight, Hotel, Transfer, Meal, Activity etc.

Technical Overview:

- \* An API Web, Mobile application where the Backend is created in Java Monolithic

Architecture

- \* Full Authentication system using session Management.

- \* Once the user logs in, we redirect to that user on project dashboard.

Role & Responsibilities:

- \* Managed complete SDLC i.e. Requirement gathering, Designing, Coding, Testing, and Maintenance

- \* Working in Agile Environment (Sprints, backlog grooming, sprint planning , and retrospective)

- \* Work closely with program analysts, testers and clients to identify features

the software needsto contain to write stories of functional to complete.

## **SGT University:- University Management System**

12 Months

ERP project work as a Middle Layer in the University for each employee and student. ERP Software contain multiple modules like attendance management system, Reports, Employee section, Student Section, Supply Chain, Accounts, Mess etc.

Technical Overview:

- \* An API Web, Mobile application where the Backend is created in Java Microservice

Architecture

- \* Full Authentication system using JWT, where each login data is stored on Mysql database.

- \* Once the user logs in, we redirect to that user on project dashboard.

Role & Responsibilities:

- \* Managed complete SDLC i.e. Requirement gathering, Designing, Coding, Testing, and Maintenance

- \* Working in Agile Environment (Sprints, backlog grooming, sprint planning , and retrospective)

- \* Work closely with program analysts, testers and clients to identify features

the software needsto contain to write stories of functional to complete.

- \* Reviewing peer's code for quality and completeness.

## **Ginger Webs pvt Ltd:- ALLEN PLUS**

24 Months

ALLEN is a leading coaching institute in India, renowned for its exceptional training programs for competitive exams such as NEET-UG, IIT-JEE (JEE Mains and Advanced), NTSE, KVPY, Boards, and Olympiads.

Technical Overview:

- \* An API Web,Mobile application where the Backend is created in Java Microservice

Architecture

- \* Full Authentication system using JWT, where each login data is stored on Mysql database.

- \* Once the user logs in, we redirect to that user on project dashboard.

Role & Responsibilities:

- \* Managed complete SDLC i.e. Requirement gathering, Designing, Coding, Testing, and Maintenance

- \* Working in Agile Environment (Sprints, backlog grooming, sprint planning , and retrospective)

- \* Work closely with program analysts, testers and clients to identify features

the software needsto contain to write stories of functional to complete.

- \* Reviewing peer's code for quality and completeness.

## **Ginger Webs pvt Ltd:- ALLEN NExT**

12 Months

ALLEN NExT, a dedicated platform that offers the highest quality education for medical PG entrance exams such as NEET-PG, FMGE, and INI-CET.

#### Technical Overview:

\* An API Web, Mobile application where the Backend is created in Java Microservice

#### Architecture

\* Full Authentication system using JWT, where each login data is stored on Mysql database.

\* Once the user logs in, we redirect to that user on project dashboard.

#### Role & Responsibilities:

\* Managed complete SDLC i.e. Requirement gathering, Designing, Coding, Testing, and Maintenance

\* Working in Agile Environment (Sprints, backlog grooming, sprint planning , and retrospective)

\* Work closely with program analysts, testers and clients to identify features

the software needsto contain to write stories of functional to complete.

\* Reviewing peer's code for quality and completeness.

### **Capgemini - CMMS Penske Truck Leasing**

6 Months

Penske Truck Leasing offers a comprehensive Computerized Maintenance Management System (CMMS) as part of its fleet maintenance solutions. This system is designed to enhance vehicle uptime, reduce operating costs, and ensure regulatory compliance by leveraging advanced technology and data analytics.

### **Walmart — sams club**

10 Months

● Design and develop scalable, high-performance Java applications using Spring Boot and Microservices architecture to support Sam's Club e-commerce and warehouse operations.

● Create and maintain RESTful APIs, enabling seamless communication across services such as inventory, order management.

● Integrate services with databases like MySQL and MongoDB, and leverage cloud platforms including AWS(S3 for media storage, SES for notifications, EC2 for deployment).
